Arizona 57th Legislature Bill Tracking
Week of February 23, 2026

Bill	Action	Hearing Date & Committee
HB2043: WOuld make abortion a felony by adding "unborn child" to definition of homicide. Grants legal rights to fetuses, laying the groundwork to restrict IVF, contraception, etc. through fetal personhood.	**OPPOSE:** • Contact your representatives	**2/23/26**: House Third Reading
HB2085: Prohibits health professionals from performing or referring minors' gender transition services and procedures. Violations considered "unprofessional conduct," potentially leading to the revocation of a medical license; also prohibits the use of public monies or state resources for gender transition procedures for minors. Individuals who received these procedures as minors to sue the providing health professional for up to 20 years after the individual turns 18.	**OPPOSE:** • Contact your representatives	**2/23/26**: House Committee of the Whole
HB2144: Would allow child support after a positive pregnancy test. Attempt to achieve fetal personhood and limit reproductive rights. Learn more about fetal personhood here.	**OPPOSE:** • Contact your representatives	**2/23/26**: House Committee of the Whole
HB2184: Attempt to codify fetal personhood. Would allow for death certificates to be issued for embryos and fetuses before 20 weeks of gestation, which is before the point at which a fetus can survive outside the uterus. Would replace the term "fetus" with "unborn child."	**OPPOSE:** • Contact your representatives	**2/23/26**: House Committee of the Whole
HB2229: Would appropriate $3m from the state general fund to "pregnancy resource centers," which spread anti-abortion messaging. Monies could not be distributed to abortion clinics or centers that refer patients to abortion clinics. Reminder: Abortion is LEGAL in Arizona and taxpayers should not be funding these fake "clinics."	**OPPOSE:** • Use RTS • Email/call House Appropriations members	**2/23/26**: House Appropriations Committee
HB2589: Prohibiting organizations that receive state tax dollars (e.g. public schools, libraries) from allowing "drag show performances" for people under 18. The definition of "drag show" in the bill is broad and vague and could include school plays (e.g.Shakespeare). Violations would be a class 4 felony, which carries a minimum sentence of 1 year in prison. Chilling effect on teachers, librarians, etc.	**OPPOSE:** • Contact your representatives	**2/23/26**: House Committee of the Whole
HB4117: Prohibits protests or assemblies in or near places of worship or religious services. This would violate 1st Amendment right to protest. Why should religious services get special, additional protection? This privileges religion.	**OPPOSE:** • Use RTS • Email/call House Rules members	**2/23/26**: House Rules Committee
HCR2013: This resolution designates June as "Celebrate Life Month." It attempts to codify fetal personhood by formally declaring that human life possesses "inherent dignity from conception" and asserting a legislative responsibility to affirm the "sanctity of life" for "preborn children" as human beings worthy of legal protection. Another attempt to take away reproductive rights.	**OPPOSE:** • Use RTS • Email/call House Rules members • Contact your representatives	**2/23/26**: House Rules Committee
HCR2056: A constitutional amendment that establishs a broad right to refuse medical mandates; would remove executive veto safeguards and create lasting constitutional constraints. Would create a direct prohibition on school vaccine requirements, even with AZ's existing religious and personal belief exemptions, and would prevent the exclusion of unvaccinated students during disease outbreaks. This would allow disease to run rampant in schools. Note that this amendment would not create a constitutional right to an abortion.	**OPPOSE:** • Use RTS • Email/call House Rules members • Contact your representatives	**2/23/26**: House Rules Committee
SB1014: Prohibits health insurers from denying coverage for gender detransition procedures and requires health insurers to provide reports of gender detransition procedures to the government that include information about the person receiving the services. Violation of privacy, targets transgender individuals.	**OPPOSE:** • Use RTS • Email/call Senate Rules members	**2/23/26**: Senate Rules Committee
SB1015: A health care professional who provides gender transisiton services for a minor can be held personally liable for up to 25 years. Discriminatory bill that opens medial professionals to risk.	**OPPOSE:** • Contact your senator	**2/23/26**: Senate Committee of the Whole
SB1094: Would prohibit physicians and other health professionals from providing gender transition procedures, including puberty blockers, cross-sex hormones, and surgery, to individuals under the age of 18. It also bans the use of public monies for such procedures and allows individuals to sue the healthcare professional within 25 years of the procedure. Discriminatory.	**OPPOSE:** • Use RTS • Email/call Senate Rules members	**2/23/26**: Senate Rules Committee
SB1095: Another bill prohibiting health professionals from providing gender transition procedures to individuals under the age of 18. It also bans the use of public monies for such procedures and allows individuals to sue the healthcare professional within 25 years of the procedure.	**OPPOSE:** • Contact your senator	**2/23/26**: Senate Committee of the Whole
SB1177: Prohibits the use of public monies to fund medical procedures for gender transition, including surgeries, puberty blockers, and hormone therapies. This restriction applies to direct spending, grants, and reimbursements via state health plans like AHCCCS. Under this bill, any public officer or employee who intentionally violates these provisions is subject to penalties for the misuse of public funds. Discriminatory.	**OPPOSE:** • Use RTS • Email/call Senate Rules members	**2/23/26**: Senate Rules Committee
SB1214: Regulates the use of stem cell and birth tissue therapies and prohibits using tissues derived from aborted fetuses and embryos, classifying violations as a Class 5 felony. Based on religious dogma, not science. Why should your access to medical decisions be determined by lawmakers' religious beliefs?	**OPPOSE:** • Use RTS • Email/call Senate Rules members	**2/23/26**: Senate Rules Committee
SB1741: Would allow religious groups to pull students from class for religious instruction in public schools. Would expose students to religious indoctrinationtion by forcing every school district to let private religious programs take children off-campus for religious instruction. Released time programs were originally designed to accommodate religious families, but these olicies have been exploited by religious groups like LifeWise Academy, a Christian nationalist organization that treats public schools as mission fields where they can minister to students without their families present. Forcing schools to allow such unregulated programs takes instruction time away from students and exposes nonreligious, LGBTQIA+, and other students who don't agree or participate to bullying and harassment.	**OPPOSE:** • Use RTS • Email/call Senate Rules members	**2/23/26**: Senate Rules Committee
HCR2003: The so-called "Protect Girls' Sports in Arizona Act would bar transgender girls from sports and gender-affirming bathrooms, this measure further marginalizes an already tiny minority of Arizona's youth. The bill is essentially a carbon copy of a 2022 law already halted by a federal judge pending a Supreme Court ruling. An attack on vulnerable children.	**OPPOSE:** • Contact your representatives	**2/23:** House Third Reading
SCR1006: Usage of "multi-occupancy" facilities (restrooms, locker rooms, and sleeping quarters) in public schools must be designated based on a person's biological sex at birth. Students must submit "satisfactory evidence" of their biological sex (such as an original birth certificate). Students who encounter a member of the opposite sex in a multi-occupancy facility may sue the school for "psychological, emotional, and physical harm" and recover attorney fees. School employees may not refer to a student under 18 by a name or pronoun that differs from their biological sex unless the school has written permission from a parent. No school can require an employee to use a pronoun that differs from a person's biological sex if doing so violates the employee's religious or moral convictions.	**OPPOSE:** • Contact your senator	**2/23/26**: Senate Committee of the Whole
